

Tender companion C Pestano & Sappho poetry fragments 2015

Vs 1

May you sleep on the breast of your tender companion

May you rest in the arms of your friend

May your love now be given protection

May your troubles and sadnesses end

Vs 2

Let me sleep on the breast of my tender companion

Let me rest in the arms of my dear

Let me stand like a mountain beside you

Let me hold you at last without fear

Middle 8

On a soft cushion I will soothe my tired body

I will let my body flow like water over the gentle pillow

Vs 3

We shall stand up for our right to love freely

We shall stand there and to them we'll say

We are rainbows, we rise above borders

May we all have this freedom some day
