

Green Fingers

Swing

Laura Bradshaw

You plant a seed You give it feed Wa - ter it Watch it grow Sun shine on

Rain fall down Reap what you've sown when it's the right time You plant a time

Green fin - gers now I'm a - sow - in Green fin - gers now I'm a - grow - in

This short bluesy round is great for gardeners or singing about other 'growing' concepts.

Teaching tip: The parts come in best every 2 bars though other entry points work too. The ending has 2 different words - 'growin' and sowin' so just choose one of these if it feels right for your group. Try making up little repeated patterns as an accompaniment.
